

# COVID-19 – action to support Food Businesses

There are large number of businesses sat on stock of quality, wholesome foods, who no longer have an instant route to market following the almost complete shutdown of the hospitality and foodservice sector.

We are working with some of the Industry's trade associations to attempt to partner these businesses with new channels/buyers.

A lot of these items may have a short shelf life and if not re-directed soon will face being wasted which would be tragic in the current climate.

**IF YOU OR YOUR BUSINESS BELIEVE YOU MAY BE ABLE TO HELP IN REDIRECTING OR PURCHASING THESE ITEMS PLEASE GET IN TOUCH ASAP.**

At this stage we do not have any specific details of what is available but are working with other organisations to set up a mechanism to facilitate this information to where it may be used to achieve a constructive outcome.

Thank you for your cooperation.
